

NATURAL G40

WHAT IS **NATURAL G40?**

Owing to its particular chemical composition, the resin NATURAL G40 is a powdered resin based on microspheres of resin, natural quarry quartz, and a percentage of cement. It is the best solution for creating floors and walls with a natural concrete effect.

Natural G40 has very high scratch resistance and is suitable for interior and exterior surfaces.

With a natural application cycle, Natural G40 has a maximum of 3mm of thickness, also available in a wide range of colours.

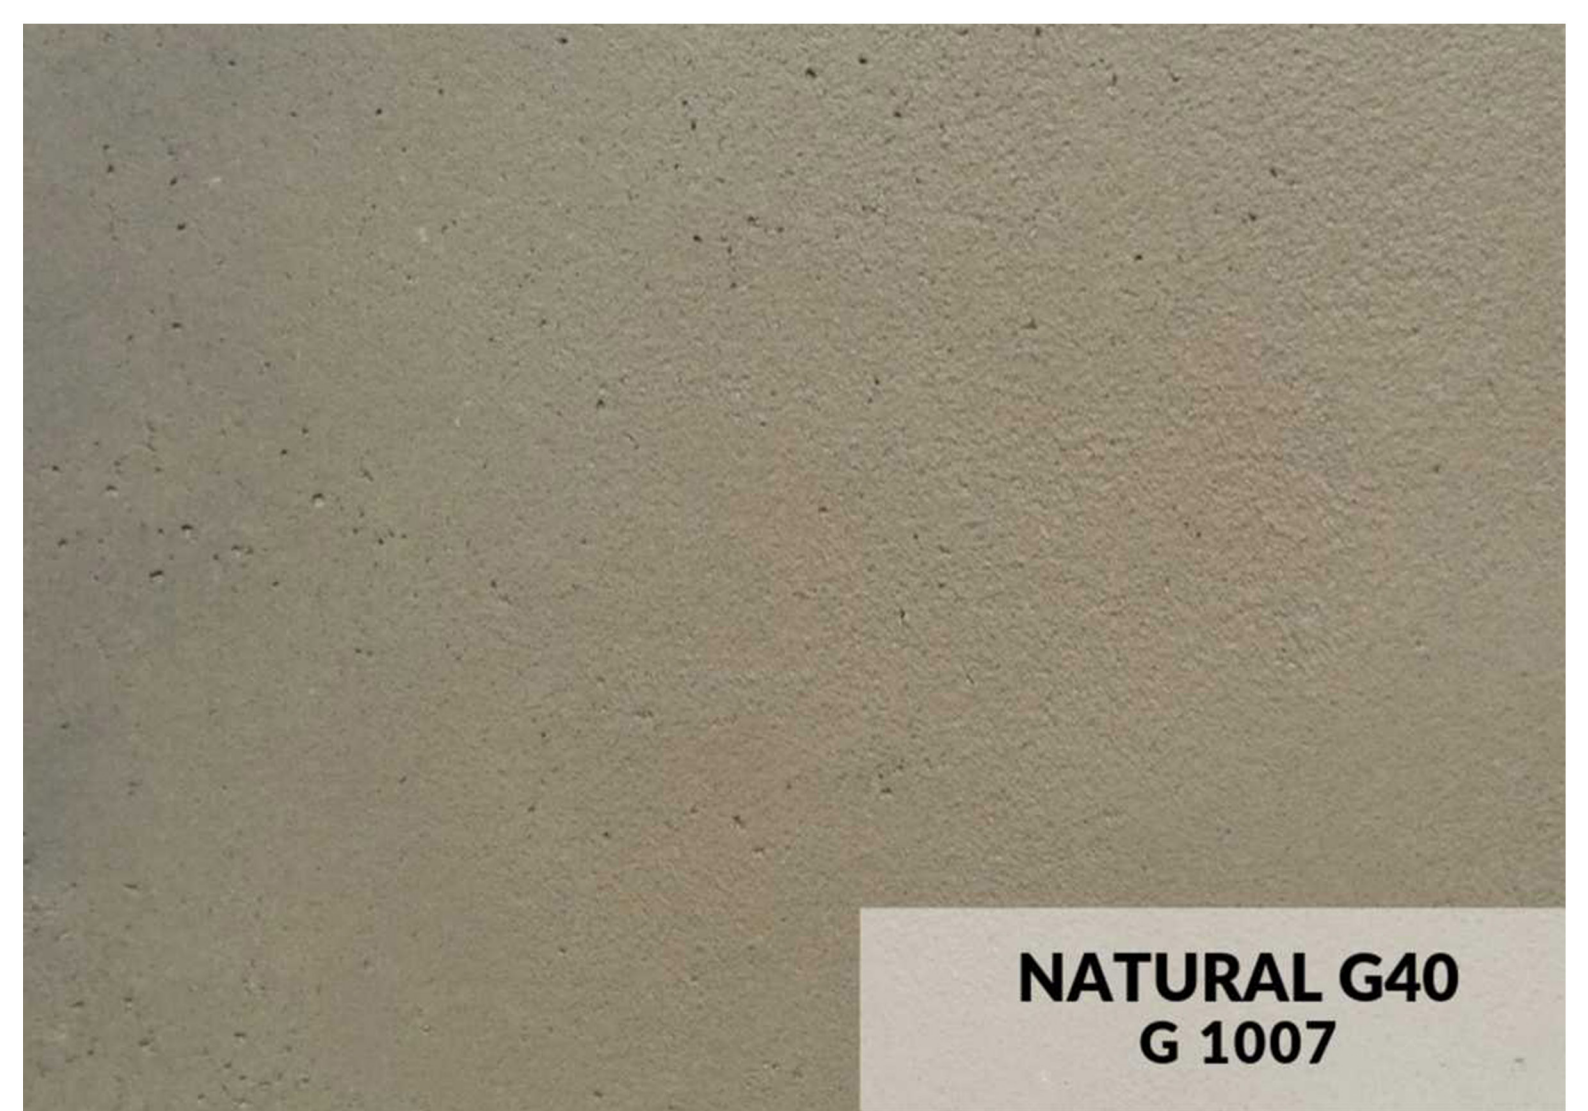

NATURAL G40 TEXTURES

**NATURAL G40
G 1015**

**NATURAL G40
G 1013**

A close-up photograph of a textured surface with a mottled appearance. The colors range from light beige to a warm, reddish-brown, with some darker, almost black, spots scattered throughout. The texture is irregular and granular.

**NATURAL G40
G 1020**

A close-up photograph of a textured surface that is a uniform, light grey color. The texture is consistent across the entire surface, appearing as a fine, granular material with small, irregular pits and bumps.

**NATURAL G40
G 1014**

**NATURAL G40
G 1011**

**NATURAL G40
G 1016**

A close-up photograph of a smooth, light grey surface with a fine, uniform texture. The lighting is even, highlighting the subtle grain of the material.

**NATURAL G40
G 1009**

A close-up photograph of a light grey surface with a highly textured, cracked appearance. The surface is covered in a dense network of small, irregular cracks, giving it a rough, weathered look.

**NATURAL G40
G 1012**

NATURAL G40
G 1002

NATURAL G40
G 1010

A close-up photograph of a dark grey, heavily textured surface, possibly a wall or ceiling, with a rough, pebbled appearance. The texture is consistent across the entire frame.

**NATURAL G40
G 1003**

A close-up photograph of a light green, heavily textured surface, similar to the one above but with a different color. The texture is consistent across the entire frame.

**NATURAL G40
G 1001**

**NATURAL G40
G 1005**

**NATURAL G40
G 1004**

**NATURAL G40
TROWEL PATTERN**

**NATURAL G40
G 1008**

A close-up photograph of a light-colored concrete surface. The surface has a distinct, slightly irregular texture created by a trowel, with small pits and ridges. The overall color is a muted, natural greyish-beige.

**NATURAL G40-00
TROWEL PATTERN**

A close-up photograph of a light-colored concrete surface. The texture is more uniform and smoother than the trowel pattern, with a fine, consistent grain. The color is a natural, slightly darker shade of greyish-beige.

**NATURAL G40
